

# SUNOLOY®

**Non-Stick Thermoforming Coatings for Syntactic Foam Plug Assists**

Technologically Advanced • Proprietary Coating Solutions • Used Worldwide

- **Ultimate Wear**
- **Excellent Non-Slick Performance**
- **Perfect Packaging, Everytime**
- **Superior to Virgin / Impregnated Foam**

Sunoloy® proprietary non-stick coatings for syntactic foam plug assists create low stick surfaces for improved product quality and increased tool durability. Impenetrable non-stick surfaces mean savings--reduced downtime and longer intervals between maintenance.

Sunoloy's proprietary, uniquely-formulated non-stick coatings reflect our commitment to your Ultimate Productivity and Perfect Packaging.

#### **Advantages of Sunoloy®**

- Non-Stick / Release • Low Surface Energy • Improve Material Distribution •
- Use with Transparent Plastic • Allows Deep Draw • Improve Overall Product Quality •
- Increase Tool Durability • Excellent Adhesion • FDA Approved •
- No Peeling • Exceptional Protection from Abrasion
