

SUNOLOY®

Non-Stick Coatings for Food Processing

Technologically Advanced • Proprietary Coating Solutions • Used Worldwide

- **Ultimate Wear**
- **Excellent Non-Stick Performance**
- **Lower Operating Costs**
- **Reduce Maintenance and Waste**

Sunoloy® proprietary non-stick coatings are “tough-as-nails” for exceptional protection from abrasion and uniquely-formulated to deliver outstanding release performance.

Rugged, impenetrable non-stick surfaces mean savings-- reduced downtime and longer intervals between maintenance. Materials comply with FDA and are GRAS (Generally Recognized as Safe).

Sunoloy's proprietary, uniquely-formulated non-stick coatings reflect our commitment to your Ultimate Productivity for optimum food processing.

Advantages of Sunoloy®

Excellent Non-Stick / Release • Low Surface Energy •
Improve Product Flow • Resist Chemical Wash Down •
Reduce Product Loss / Waste • Improve Material
Distribution • Resist Permeation • Excellent Adhesion •
FDA Approved • No Peeling • Exceptional Protection
from Abrasion • Multiple Color Choices
